

CBP AND AAEI CENTERS CIRCLE: Aluminum Importers

www.aaei.org

COLLABORATE WITH CBP

Are you an aluminum importer looking to streamline your trade operations? Look no further! The U.S. Customs and Border Protection (CBP) has teamed up with the American Association of Exporters and Importers (AAEI) to bring you an exclusive education program tailored just for you. Our program, focused on aluminum importers, welcomes all – AAEI membership not required!

UNLOCK INSIGHTS

Gain an in-depth understanding of CBP's intricate processes and initiatives. Armed with this invaluable knowledge, you can fine-tune your own strategies to align with CBP, resulting in swift processing and heightened enforcement for high-risk cargo.

SHARE FEEDBACK

CBP wants to hear from you! Let your voice be heard as you provide feedback on your importing challenges. CBP is eager to collaborate in overcoming hurdles and refining processes to champion legitimate trade, while quelling illicit activities that undermine our importing community. Have a sensitive question? Don't worry, you can submit them anonymously to mhart@aaei-hq.org in advance!
